

Electrical Assets – Cables, Conduits, Lights & Poles

Attention: You must read and understand the information below prior to commencement of design or construction works on affected sites

Asset Ownership

Electrical assets within the City's local government area are owned by a number of organisations including Ausgrid, Roads and Maritime Services and other public or private entities. The City provides available information on electrical assets owned only by the City Of Sydney. The City does not explicitly or implicitly provide information on electrical assets owned by other entities.

Combined Electrical Networks

There are a number of electrical networks that supply City assets within the City's local government area. These assets are owned by Ausgrid and are not depicted on City plans. Information within these drawings may have to be read in conjunction with Ausgrid drawings to determine the connectivity between Council and Ausgrid assets.

Data limitations

Diagrammatic information regarding the existence of electrical assets is provided in accordance with the conditions and limitations stated in the City's documentation. It is the responsibility of the Enquirer to undertake appropriate site investigations to confirm details such as asset existence, ownership, location, type, dimensions, and levels.

The City has not undertaken survey to determine the position of its assets in relation to property boundaries. It is the responsibility of the Enquirer to ascertain the position of electrical assets in relation to property boundaries.

Electrical Services

Electrical Services such as switchboards, special small services, pits, or distribution boards can be impacted by construction at significant distances from these assets. It is the responsibility of the Enquirer to ensure that construction activity does not impact electrical assets.
